Subject: Site Access for Friday 5/10, Magna Metals Site # 360003

Donald and Doreen,

The Department is moving forward under the State Superfund to implement the selected remedy as described in Record of Decision. We will require limited site access this Friday, for planning purposes only (no intrusive activities planned). We will followup with the NYSDEC 10-day access agreement/letter at a later date because we will need to perform some pre-design investigation activities. Our standby consultant that will be putting together these planning/design documents is:

Thomas M. Connors P.E., MBA, LSRP
